PROFESSIONAL SUMMARY

AI Software Engineer with expertise in building Generative AI applications, Large Language Model (LLM) integrations, and automated text processing pipelines. Proficient in Python, RESTful API design, contextual reasoning, and intelligent document summarization.

EDUCATION

Dr. Ambedkar Institute of Technology

Bachelor of Engineering in Computer Science and Engineering (CGPA: 7.5)

Bengaluru, India

2022 – 2026

Nisarga PU College

12th Grade / Pre-University (87%)

Kalburgi, India

2019 – 2021

TECHNICAL SKILLS

AI & LLM Technologies: Generative AI APIs, LLM Integration, Contextual Reasoning, PDF Text Processing

Languages: Python, JavaScript, Java, C, SQL, Kotlin

Frameworks & Platforms: Next.js, Node.js, Express.js, Firebase, REST APIs

Tools: VS Code, Git, GitHub, Python Data Science Environment

EXPERIENCE

Software Development Intern - Generative AI

MindMatrix

2026

Remote

- Explored and integrated Generative AI models into user applications to enhance feature interactivity.
- Implemented smart data retrieval pipelines and cloud sync services using Firebase.

PROJECTS

AI-Powered Virtual Legal Assistant | *Python, LLMs, Next.js, Node.js, REST APIs*

- Designed an intelligent legal platform capable of document parsing, legal QA, and probabilistic verdict prediction.
- Engineered automated PDF summarization pipelines using LLM-based contextual reasoning modules.

Movie Recommendation System | *JavaScript, Python, HTML/CSS*

- Implemented dynamic search and automated scoring logic for customized recommendations.

CERTIFICATIONS

Certifications: Python Programming Certification,

Python for Data Science Certification,

SQL Basic
