PROFESSIONAL SUMMARY

Backend Developer proficient in Java, Python, SQL, and Node.js. Specialized in designing RESTful APIs, database schema management (SQL, MongoDB, Firebase), and implementing secure authentication mechanisms and business logic layer architectures.

EDUCATION

Dr. Ambedkar Institute of Technology

Bachelor of Engineering in Computer Science and Engineering (CGPA: 7.5)

Bengaluru, India

2022 – 2026

Nisarga PU College

12th Grade / Pre-University (87%)

Kalburgi, India

2019 – 2021

TECHNICAL SKILLS

Backend Languages: Java, Python, SQL, JavaScript (Node.js), C

Backend Technologies: Node.js, Express.js, RESTful API Design, Middleware, Firebase Authentication

Databases & Storage: SQL (DBMS), MongoDB, Firebase Realtime Database

Core Concepts: OOPs, Data Structures, Relational Database Management, System Architecture

EXPERIENCE

Software Development Intern

MindMatrix

2026

Remote

- Implemented Firebase Authentication, role-based access control, and server-side logic for dynamic data models.
- Managed database triggers and optimized real-time data sync protocols to minimize request latency.

PROJECTS

AI Legal Assistant Backend Service | *Python, Node.js, REST APIs*

- Engineered Python scripts for PDF text parsing, tokenization, and LLM-driven contextual summarization.
- Constructed secure Node.js REST API endpoints to process case queries and return structured output payloads.

Multi-Sport Real-Time Scoring Database Infrastructure | *Firebase, JSON, SQL*

- Architected normalized database structure for multi-sport scoring, tournament brackets, and player statistics.
- Designed backend admin functionality ensuring concurrent writing and transactional score calculations.

CERTIFICATIONS

Certifications: Python Programming Certification,

SQL Basic Certification,

Python for Data Science Certification
